**Lecture Series -
 Modern Drug Discovery**

We are happy to announce the program of winter semester's lecture series "Modern Drug Discovery" covering a wide range of research in Medicinal Chemistry and Chemical Biology.

Where: Hörsaal 2, chemistry building

When: Wednesdays, 1:00 pm

date	speaker	topic	host
08.11. ¹	Prof. Dr. Dorothea Fiedler Leibniz-Forschungsinstitut für Molekulare Pharmakologie (FMP), Berlin	Elucidating the functions of inositol pyrophosphate messengers with chemical tools	AB
15.11.	Prof. Dr. Volker Haucke Leibniz-Forschungsinstitut für Molekulare Pharmakologie (FMP), Berlin	Phosphoinositide conversion in endocytosis and in the endolysosomal system"	AB
04.12. ¹ cave: Monday, 5:00 pm	Prof. Dr. Ludger Wessjohann Leibniz-Institut für Pflanzenbiochemie, Halle	Organisms, Enzymes and Chemists - Short Stories on Bioactive Compound Discovery and Development from Analytical to Synthetic (Bio-)Chemistry	AB
17.01.	Prof. Dr. Tanja Schirmeister, Universität Mainz	Allosteric inhibitors of flaviviral NS3/NS2B proteases	OK

1. Organized in collaboration with the GDCh

If you wish to meet the speaker, please contact us!

Dr. Andreas Brunschweiger (AB), andreas.brunschweiger@tu-dortmund.de

Dr. Oliver Koch (OK), oliver.koch@tu-dortmund.de

Prof. Daniel Rauh, daniel.rauh@tu-dortmund.de
